Mr. Andrew W. Anderson
Chief, Assessments Division
Department of the Army
U.S. Army Toxic and Hazardous Materials Agency
Aberdeen Proving Ground, MD 21010-5401

Dear Mr. Anderson:

Thank you for your letter of November 1, regarding the status of the Installation Restoration Program (IRP) at Army installations in Region VI. We have several concerns regarding the IRP at various installations. We will, however, contact those installations individually as you recommended.

Please contact Greg McCabe at (214) 767-9763 if you have any comments or questions regarding our concerns.

Sincerely,

Samuel L. Nott, Chief
Superfund Branch
